

V BUCKET

PRODUCT INFORMATION

The Cobra V Bucket is built for clean, accurate trenching in tough conditions. Its V-shaped profile is designed to create neat trench lines while helping reduce spoil, backfilling, and rework on site.

Ideal for drainage, irrigation, and utility work, the Cobra V Bucket delivers precision and efficiency across a wide range of trenching applications. It is a practical choice for operators who need consistent results in demanding ground conditions.

Built from tough HB350 steel with hard-wearing cutting edges and wear plating, it is made for long service life. Backed by a 3-year warranty, the Cobra V Bucket is a dependable choice for everyday site work.

FEATURES

HB400 Cutting Edges & Wear Plating

Engineered for maximum wear resistance in high-stress environments.

Optional Trinket (12T & Above)

Available for added versatility in specialised applications.

Extended Wings

Designed to improve trench depth and cutting consistency.

HB350 High-Strength Steel Body

Built for durability in demanding trench conditions.

BENEFITS

FREE FREIGHT

To selected depots around New Zealand.

3 YEAR WARRANTY

Built tough, backed by an industry leading 3 year warranty.

FASTER PIPE & DRAIN INSTALLATION

Uniform trench shape allows quicker placement with less adjustment on site.

CLEANER, MORE ACCURATE TRENCHES

V-Shaped design delivers safer, consistent trench profiles with minimal over cut and tidy-up required.

REDUCED EXCAVATION COSTS

Removes only the material needed, cutting down down spoil, transport and backfilling time.

BUILT FOR COMMERCIAL DRAINAGE AND TILING WORK

Designed specifically for drainage, irrigation and utility trenching applications.

A lot of buckets claim to be a V bucket, but this one is the real deal. The shape is right and it leaves a tidy finish.

Matt H., Contractor
